WELCOME

Welcome to the 2020 New Jersey Legal Awards, This year's ceremony will look and feel different, like so many aspects of 2020. But our mission is unchanged: take stock of the fine legal work done in the preceding year, and in some cases well before that, and to offer members of the bar a measure of recognition for their distinguished achievements.

As is the case every year, excellence for this slate of honorees has come in many forms. Common to all, however, are the commitment to quality of work and genuine value of service to both client and profession. We hold up these honorees not only to congratulate them, but also to offer strong examples of leadership, dedication and hard work to all members of the profession. We strive to make our awards program as instructive as it is celebratory.

We thank all those who participated for their enthusiasm. The program wouldn't be possible without it. And we congratulate once more the honorees for their fine work. We look forward to hearing from you again soon.
